Why are FAM workshops extra special?

The Museum is a unique environment where children can be inspired and exposed to world-class artwork and antiquities, not just images in a book or posters on a wall. The Fresno Art Museum is 70 years old this year, and we have been told by many that classes at the Museum were a big part of their growing up in Fresno, creating long-lasting and wonderful memories. Our goal is to continue that legacy by offering classes to engage children and foster a love for the arts, learning, and discovery.

Our workshops are taught by working professional artists who bring their special talents and knowledge to every session they teach. All of our teaching artists have had training and experience in working with children, and all strive to transfer their own love of the arts to each of their students in a lively, engaging, and exciting way.

Students will explore the Elements of Art and how they apply to the Principles of Design through a variety of media in ALL of our workshops. For ages 8 to 17.

WEEK 1 (June 17 to 21)
