### A NOTE FROM THE ARTIST:

This workshop will focus on helping students develop the tools needed to foster an understanding that the subject dictates how the painting should start and progress to completion.

As a painting instructor, my mission is to provide students with the foundation necessary to be creative.

My workshops are very hands-on, with an emphasis on easel-side critiques. I believe that giving instruction is important, but showing students how this instruction applies to their individual work is crucial. Based on the student's level and goals, I develop a program for improving each individual's ability as a painter.

### What Elio's students say:

"Elio has a true gift as a teacher; an intelligent grasp of every facet of the art world combined with rare talent and kind patience toward even those of us brand new to painting."

- Janet H., Davenport, CA

"In 30 years of taking art classes off and on, I learned more in four days than I learned in all 30 years put together."

- Carol, Tequesta, FL
